AUER GROWTH FUND
NOTES TO THE FINANCIAL STATEMENTS

May 31, 2019 – (Unaudited)

NOTE 1. ORGANIZATION

The Auer Growth Fund (the “Fund”) was organized as a diversified series of Unified Series Trust (the “Trust”) on September 10, 2007. The Trust is an open-end investment company established under the laws of Ohio by an Agreement and Declaration of Trust dated October 17, 2002 (the “Trust Agreement”). The Trust Agreement permits the Board of Trustees of the Trust (the “Board”) to issue an unlimited number of shares of beneficial interest of separate series. The investment objective of the Fund is to provide long-term capital appreciation. The Fund is one of a series of funds currently authorized by the Board. The Fund’s investment adviser is SBAuer Funds, LLC (the “Adviser”).

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 946, “Financial Services-Investment Companies”. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”).

Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Federal Income Taxes – The Fund makes no provision for federal income or excise tax. The Fund has qualified and intends to qualify each year as a regulated investment company (“RIC”) under subchapter M of the Internal Revenue Code of 1986, as amended, by complying with the requirements applicable to RICs and by distributing substantially all of its taxable income. The Fund also intends to distribute sufficient net investment income and net realized capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. If the required amount of net investment income or gains is not distributed, the Fund could incur a tax expense.

As of and during the six months ended May 31, 2019, the Fund did not have a liability for any unrecognized tax benefits. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of

AUER GROWTH FUND
NOTES TO THE FINANCIAL STATEMENTS – (continued)

May 31, 2019 – (Unaudited)

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES – continued

Operations when incurred. During the period, the Fund did not incur any interest or penalties. Management of the Fund has reviewed tax positions taken in tax years that remain subject to examination by all major tax jurisdictions, including federal (i.e., the previous three tax year ends and the interim tax period since then, as applicable) and has concluded that no provision for unrecognized tax benefits or expenses is required in these financial statements and does not expect this to change over the next twelve months.

Expenses – Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds based on each fund’s relative net assets or another appropriate basis (as determined by the Board).

Security Transactions and Related Income – The Fund follows industry practice and records security transactions on the trade date for financial reporting purposes. The specific identification method is used for determining gains or losses for financial statements and income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Distributions received from investments in real estate investment trusts (“REITs”) that represent a return of capital or capital gain are recorded as a reduction of the cost of investment or as a realized gain, respectively. The calendar year-end amounts of ordinary income, capital gains, and return of capital included in distributions received from the Fund’s investments in REITs are reported to the Fund after the end of the calendar year; accordingly, the Fund estimates these amounts for accounting purposes until the characterization of REIT distributions is reported. Estimates are based on the most recent REIT distributions information available. Withholding taxes on foreign dividends and related reclaims have been provided for in accordance with the Fund’s understanding of the applicable country’s tax rules and rates.

Foreign Currency Translation – The accounting records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars at the current rate of exchange each business day to determine the value of investments, and other assets and liabilities. Purchases and sales of foreign securities, and income and expenses, are translated at the prevailing rate of exchange on the respective date of these transactions. The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from fluctuation arising from changes in market prices of securities held. These fluctuations are included with the realized and unrealized gain or loss from investments. Reported

AUER GROWTH FUND
NOTES TO THE FINANCIAL STATEMENTS – (continued)

May 31, 2019 – (Unaudited)

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES – continued

net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at period end, resulting from changes in exchange rates.

Dividends and Distributions – The Fund intends to distribute its net investment income and net realized long-term and short-term capital gains, if any, at least annually. Dividends and distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the period from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified among the components of net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset value (“NAV”) per share of the Fund.

Redemption Fees – The Fund charges a 1.00% redemption fee for shares redeemed within 7 days of purchase. These fees are deducted from the redemption proceeds otherwise payable to the shareholder. The Fund will retain the fee charged as an increase in paid-in capital and such fees become part of the Fund's daily NAV calculation.

NOTE 3. SECURITIES VALUATION AND FAIR VALUE MEASUREMENTS

Fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. GAAP establishes a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes.

NOTE 3. SECURITIES VALUATION AND FAIR VALUE MEASUREMENTS – continued

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk (the risk inherent in a particular valuation technique used to measure fair value including a pricing model and/or the risk inherent in the inputs to the valuation technique). Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained and available from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below.

- Level 1 – unadjusted quoted prices in active markets for identical investments and/or registered investment companies where the value per share is determined and published and is the basis for current transactions for identical assets or liabilities at the valuation date
- Level 2 – other significant observable inputs (including, but not limited to, quoted prices for an identical security in an inactive market, quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments based on the best information available)

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy which is reported, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Equity securities that are traded on any stock exchange are generally valued at the last quoted sale price on the security's primary exchange. Lacking a last sale price, an exchange-traded security is generally valued at its last bid price. Securities traded in the NASDAQ over-the-counter market are generally valued at the NASDAQ Official

NOTE 3. SECURITIES VALUATION AND FAIR VALUE MEASUREMENTS – continued

Closing Price. When using the market quotations and when the market is considered active, the security is classified as a Level 1 security. In the event that market quotations are not readily available or are considered unreliable due to market or other events, the Fund values its securities and other assets at fair value in accordance with policies established by and under the general supervision of the Board. Under these policies, the securities will be classified as Level 2 or 3 within the fair value hierarchy, depending on the inputs used.

Investments in mutual funds, including money market mutual funds, are generally priced at the ending NAV provided by the service agent of the mutual funds. These securities are categorized as Level 1 securities.

In accordance with the Trust's valuation policies, the Adviser is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. No single method exists for determining fair value, because fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of a security being valued by the Adviser would be the amount that the Fund might reasonably expect to receive upon the current sale. Methods that are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market prices of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods. Fair-value pricing is permitted if, in the Adviser's opinion, the validity of market quotations appears to be questionable based on factors such as evidence of a thin market in the security based on a small number of quotations, a significant event occurs after the close of a market but before the Fund's NAV calculation that may affect a security's value, or the Adviser is aware of any other data that calls into question the reliability of market quotations.

NOTE 4. FEES AND OTHER TRANSACTIONS WITH AFFILIATES

The Adviser, under the terms of the management agreement (the “Agreement”), manages the Fund’s investments. As compensation for its management services, the Fund is obligated to pay the Adviser a fee computed and accrued daily and paid monthly at an annual rate of 1.50% of the Fund’s average daily net assets. For the six months ended May 31, 2019, the Adviser earned a fee of \$182,583 from the Fund. At May 31, 2019, the Fund owed the Adviser \$30,937 for advisory services.

Ultimus Fund Solutions, LLC (the “Administrator”) provides the Fund with administration, fund accounting, transfer agent and compliance services, including all regulatory reporting. For the six months ended May 31, 2019, the Administrator earned fees of \$14,061 for administration services, \$16,166 for fund accounting services, \$9,000 for transfer agent services and \$6,000 for compliance services. At May 31, 2019, the Fund owed the Administrator \$7,700 for such services.

The Board supervises the business activities of the Trust. Each Trustee serves as a trustee until termination of the Trust unless the Trustee dies, resigns, retires, or is removed. All of the Trustees are “Independent Trustees,” which means that they are not “interested persons” as defined in the Investment Company Act of 1940, as amended (the “1940 Act”). Each Trustee of the Trust receives annual compensation of

\$2,070 per fund from the Trust, except that the Independent Chairman of the Board, the Chairman of the Audit Committee, the Chairman of the Governance & Nominating Committee, and the Chairman of the Pricing & Liquidity Committee each receives annual compensation of \$2,520 per fund from the Trust. Prior to January 1, 2019, these fees were \$1,850 and \$2,300 for non-chairmen and chairmen, respectively. Trustees also receive \$1,000 for attending each special in-person meeting. In addition, the Trust reimburses Trustees for out-of-pocket expenses incurred in conjunction with attendance at meetings.

Certain officers of the Trust are employees of the Administrator or Unified Financial Securities, LLC (the “Distributor”). The Distributor acts as the principal distributor of the Fund’s shares. The Distributor operates as a wholly-owned subsidiary of the Administrator. An officer of the Trust is an officer of the Distributor and such person may be deemed to be an affiliate of the Distributor. Officers, other than the Chief Compliance Officer, who is not an officer or employee of the Administrator or the Distributor, are not paid by the Trust for services to the Fund.

The Trust, with respect to the Fund, has adopted a distribution plan pursuant to Rule 12b-1 under the 1940 Act (the “Plan”). Under the Plan, the Fund will pay the Distributor, the Adviser and/or any registered securities dealer, financial institution or any other person (the “Recipient”) a fee of 0.25% of the average daily net assets of the Fund in connection with the promotion and distribution of the Fund’s shares or the provision of personal services to shareholders, including, but not necessarily limited to, advertising, compensation to underwriters, dealers and selling personnel, the printing and mailing of prospectuses to other than current Fund shareholders, the printing and mailing of sales literature and servicing shareholder accounts (“12b-1 Expenses”). The Fund or Adviser may pay all or a portion of these fees to any Recipient who renders assistance in distributing or promoting the sale of shares, or who provides certain shareholder services, pursuant to a written agreement. The Plan is a compensation plan, which means that compensation is provided regardless of 12b-1 Expenses actually incurred. The Fund has not implemented its 12b-1 Plan, although the Fund may do so at any time upon 60 days notice to shareholders.

NOTE 5. INVESTMENT TRANSACTIONS

For the six months ended May 31, 2019, purchases and sales of investment securities, other than short-term investments, were \$26,681,215 and \$28,173,020, respectively.

There were no purchases or sales of long-term U.S. government obligations during the six months ended May 31, 2019.

NOTE 6. BENEFICIAL OWNERSHIP

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a) (9) of the 1940 Act. At May 31, 2019, Bryan Auer and Janet Auer, who are married, owned 80.75% of the Fund. As a result, Bryan and Janet Auer each may be deemed to control the Fund.

NOTE 7. FEDERAL TAX INFORMATION

At May 31, 2019, the net unrealized appreciation (depreciation) of investments for tax purposes was as follows:

Gross unrealized appreciation	\$ 701,247
Gross unrealized depreciation	(1,980,383)
Net unrealized appreciation/ (depreciation) on investments	\$ (1,279,136)
Tax cost of investments	<u>\$ 24,160,251</u>

As of May 31, 2019, the difference between book basis and tax basis unrealized appreciation (depreciation) is primarily attributable to the tax deferral of losses on wash sales and REIT related adjustments.

At November 30, 2018, the Fund's most recent fiscal year end, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Accumulated capital and other losses	\$ (6,689,234)
Unrealized depreciation on investments	<u>(2,747,653)</u>
Total accumulated deficit	<u>\$ (9,436,887)</u>

NOTE 7. FEDERAL TAX INFORMATION – continued

As of November 30, 2018, the Fund had short-term and long-term capital loss carryforwards of \$984,163 and \$5,450,193, respectively. These capital loss carryforwards, which do not expire, may be utilized in future years to offset net realized capital gains, if any, prior to distributing such gains to shareholders. During the fiscal year ended November 30, 2018, the Fund utilized capital loss carryforwards of \$3,752,063.

Capital losses and specified gains realized after October 31, and net investment losses realized after December 31 of a Fund's fiscal year may be deferred and treated as occurring on the first business day of the flowing fiscal year for tax purposes. For the year ended November 30, 2018, the Fund deferred \$254,878 of late year ordinary losses.

NOTE 8. COMMITMENTS AND CONTINGENCIES

The Trust indemnifies its officers and Trustees for certain liabilities that may arise from their performance of their duties to the Trust or the Fund. Additionally, in the normal course of business, the Trust enters into contracts that contain a variety of representations and warranties which provide general indemnifications. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred.

NOTE 9. SUBSEQUENT EVENTS

Management of the Fund has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date these financial statements were issued. Based upon this evaluation, management has determined there were no items requiring adjustment of the financial statements or additional disclosure.

SUMMARY OF FUND EXPENSES – (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction and (2) ongoing costs, including management fees; and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from December 1, 2018 through May 31, 2019.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the second line of the table below is useful in comparing ongoing costs only and will not help you determine the relative costs of owning different funds. In addition, if transaction costs were included, your costs would have been higher.

Auer Growth Fund	Beginning Account Value December 1, 2018	Ending Account Value May 31, 2019	Expenses Paid During Period^(a)	Annualized Expense Ratio
Actual	\$ 1,000.00	\$ 937.60	\$ 11.15	2.31%
Hypothetical ^(b)	\$ 1,000.00	\$ 1,013.42	\$ 11.58	2.31%

(a) Expenses are equal to the Fund’s annualized expense ratios, multiplied by the average account value over the period, multiplied by 182/365 (to reflect the one-half year period).

(b) Hypothetical assumes 5% annual return before expenses.
